I am very glad to get an opportunity to say something about my college. Being a part of this institution, I really feel glad. During my three years of study in this college, I found myself to be a lucky girl because I had an opportunity to shape and sharp my mind. It is one of the colleges providing lots of facilities as well as better knowledge to all students.

Thanks to all my respected teachers

First of all I want to thank this college, my principal and faculties of my college. I have become the best sports person due to the inspiration & motivation of my physical director, principal and all teaching fraternities. I really thank my college for that.

I really love the atmosphere of this college and mostly all the professors of this college due to their cooperation and my hard work. I am fortunate enough that I have achieved the award of best sports person.

Thank you so much for making me the part of this college.

English Department in Umiya Arts & Commerce College provides me an opportunity to know about the depth of English literature. The professors have provided me enough opportunity to express my views and to develop myself. They always make the classroom atmosphere alive. I am proud to be a student of this educational Institution.

The professors made me know the flow of English literature. During the exams I understood my weakness in English and this made me prepare well for the University exam of T.Y. B. A. the regular tests at the college have strengthened my ability to express in the examination.

Our “Umiya Arts & Commerce College for Girls” is truly at the forefront of promoting girl’s education. This college has made it meaningful to the noble spirit of the government, the slogan of “Save the girl, Educate the Girl”. This college emphasizes on girls’ education. There are various activities for education and internal development of the students such as NSS, NCC, Sports, Civil Defence, CWDC etc. Along with this, CCC, CS, Scope Tally, Finishing School as well various types of seminars, are also organized to develop extra skills in the students

The professors of this college are very supportive, helpful and active. I have learned a lot during these 3 years under their guidance. They make the study easier and more interesting through activities such as group discussions, presentations, student support programs and many more. The college professors not only teach educational lessons of curriculum but life lessons too, which help every student when they go out into a new field. The faculties pay their personal attention to the students which help in the students’ overall development.

The experiences of three years in this college have been very good and memorable and I am proud to be a student of this college.
